Williamson County Schools
Mill Creek Middle School

To Whom it May Concern,

My daughter Layla is in 8th grade and my daughter Piper is in 6th grade in Williamson County School District, and I hereby notify you of the following:

Under no circumstances are you to provide any medical attention, medical treatment, medical testing or provide medical advice to my children without the presence of myself or their father Eric McKinney.

Under no circumstances will you speak to, reprimand, or advise my students alone, with any adult (no matter who they are,) medical professional, teacher, or any other public or private entity without the presence of myself or their father Eric McKinney related to any health or medical matter whether it be physical or mental health.

Under no circumstances are you to demand, inquire or ask my children to fill out a form, respond to questions written or oral or digitally about their physical or mental health choices, medical history, doctor's information, or insurance information without the presence of myself or their father Eric McKinney

I authorize appropriate, serious emergency and/or life-threatening care only (e.g., CPR, serious injury, the need for ambulance assistance, etc.). If my child comes to the nurse's clinic with non-emergent concerns, please contact me prior to any treatment for direction on how to proceed.

Under no circumstances are you to demand, inquire or ask my children to fill out a form, respond to questions written or oral or digitally about any matters related to their activities, relationships, family dynamics or personal matters without the presence of myself or their father Eric McKinney

Ensure that this document is available in their student profile to advise all those that coordinate, associate, or have access to my children's school records.

Sincerely yours,

Kristin McKinney
